

# WILLARD PARK

OF HOLY CROSS WESTMINSTER

# Thank You!

Thank you for all of your hard work on revitalizing the Willard Park Community Garden on Saturday, September 20th! With 20+ volunteers from the Willard Park community, IUPUI, and Rotary Club of Indianapolis, we were able to build and fill raised garden beds, create a gravel pathway, and lay down mulch in **ONLY 3.5 HOURS!** While the process was labor intensive, all volunteers put sweat equity into the community garden—children from the neighborhood even lent a hand by smoothing out bed soil or hauling mulch and soil in wheelbarrows. We could not have accomplished all of this in so little a time without all of your hard work. We also sincerely thank the Rotary Club of Indianapolis for their grant to fund the project. We look forward to the spring season when we can start planting vegetables and flowers, and host community events in the space. If you have ideas for future community projects in the Willard Park area, or wish to volunteer again, please contact [intern@rileyarea.org](mailto:intern@rileyarea.org).
